

File a Formal Complaint - Eva Raczkowski Bennett

[Evaesq](#) reported 22 days ago (Tue, 15 Aug at 2:20 AM) via Portal Meta

Several employees of Jefferson Healthcare located in Port Townsend, WA have informed me that they have been approached and pressured at work, during working hours, to endorse, support the campaign of, and/or attend campaign events in support of a specific candidate for the Jefferson Healthcare Hospital Commission, Bruce McComas. Personal conversations and telephone calls made using hospital equipment and placed during the work day have been made by hospital employees to other employees to apply pressure on employees to support Mr McComas. The employees who have been approached have stated that they feel that, if they do not react positively by supporting Mr McComas actively, they will lose their jobs or, at the least, be made to feel uncomfortable in their place of work.

In addition, while a patient at the hospital, I have been approached by hospital staff to solicit my support for Mr McComas. When I did not respond positively to such solicitations, I felt that the quality of the care I received might be threatened.

Please enforce applicable laws. This conduct is intimidating and is, at the very least, unethical.

Thank you.
