My name is Jaclyn Gallion and I am writing in response to the alleged PDC complaint declared against me by Bob West.

I was not a candidate within the meaning of RCW 42.17a.005 (7). I did not receive contributions or make expenditures with the intent to prompt a candidacy for office. I did not purchase commercial advertising space or board cast time to promote a candidacy for office. I did not announce publicly for an office to the extent I commented that I would be a better candidate for office than another candidate, that was purely political commentary and did not evince a design to said office. I did not give my consent to another person to do the above either.

As to the other allegations I was not a member of anyone's campaign team. However, as a private citizen I did encourage people to vote and gave my personal opinion on who I thought were the best candidates.

This complaint is politically motivated with the goal of harassing me, a private citizen and chilling free speech. Therefore I request the complaint filed against me by immediately dismissed.

Jaclyn Gallion
