

## File a Formal Complaint - Candace Lee Drollinger

I am the Felony Paralegal at the Jefferson County Prosecutor's Office. Mr. Haas is coming up for re-election this November. For the past year, he has pressured his Chief Criminal Deputy Prosecutor to support him because "his opponent will fire her." Now that election season has begun, he mentions this almost daily. He also pressures her to attend campaign functions, put his sign in her yard, and display a button. In fact, he asked her why she wasn't wearing her button, and then attempted to pin it to her purse. He tells her that she will be "okay" when she gets fired because she can go into private practice with him.

I am not even addressing his constant electioneering from his office during the day. The Chief Deputy feels cornered because she is "at will", and Haas could himself fire her at any time.

I am requesting an investigation be conducted into this -- specifically questioning the Chief Deputy.
