Hello dear lady and world traveler!

Attached is a letter, well within the 200 word limit. It is simple to copy and paste it to the Herald web site for letters to the editor. Hopefully, you can get this out before you have to leave; but I know that is pressing it when you have to check with your other Board members. Heather may want to tweak it because that is one of her interests and strengths.

Thank you so much for your willingness to do this on behalf of the levies.

Hi Dawn!

I haven't contacted you for ages so I am hoping this is a working address.

Would the School Board be willing to write a letter to the Tri City Herald in support of the levy? You already know quite a bit about it. I know Boards in the past have written a joint letter, signed by all, supporting both levies and bonds. Because the public has elected all of you, they trust your word and expertise. They know you recognize the need for both levies and bonds. If you need data, you could pull it directly from the brochure that has been mailed. It would mean a great deal to the public to hear from all of you regarding these two levies.

Thanks for considering this.

Jan Fraley

VOTE YES TWICE

As Board members for the Kennewick School District, we understand the necessity of levies to make certain programs, staff, and athletics are maintained. Even with the State changes to meet the McCleary Act, promising to meet basic educational needs, there still remains a shortfall.

The Education Programs levy will provide the means to keep our children safe, maintain instructional support, sustain athletic programs, preserve building operations, and continue programs, such as fine arts, gifted, dual language, and physical education. The Technology levy will move students technologically forward to meet business and industry standards by increasing student access to computers.

We firmly believe every child deserves the chance for a first class education. Kennewick administration and staff have consistently provided exactly that education. Now, they need our help to maintain those opportunities for a future for Kennewick's children. Please join us in voting YES twice for Kennewick Schools.

Heather	2/5/2018 10:35:04 AM	I'm not sure if there's a PDC violation associated with that action. I have to go look at the lot again. I recall that as a board we can resolve to support a particular action. Not sure if a letter to the editor qualifies as that.

VOTE YES TWICE

As Board members for the Kennewick School District, we understand the necessity of levies to ensure certain programs, staff, and athletics are maintained. Even with the State changes to meet the McCleary Act, promising to meet basic educational needs, there still remains a shortfall.

The Education Programs levy will provide the means to keep our children safe, maintain instructional support, sustain athletic programs, preserve building operations, and continue programs, such as fine arts, gifted, dual language, and physical education. The Technology levy will move students technologically forward to meet business and industry standards by increasing student access to computers.

We firmly believe every child deserves the chance for a first class education.

Kennewick administration and staff have consistently provided exactly that education.

Now, they need our help to maintain those opportunities for a future for Kennewick's children. Please join us in voting YES twice for Kennewick Schools.
