On Friday, May 18, 2018 at 8:15am, I was in the Grant County Treasurer's office processing a multi-document transaction. While there, Mr. Scott Schmig answered the phone, sounded as though he was answering the the caller's questions, then proceeded to complain that a "certain office" was closing for several hours and how that was a disservice to the public. I knew this office to be the Assessor's office as I had received an email notice days in advance from the Assessor's office about the closure for training. Before completing the call, Mr. Schmig asked the caller if they would like to contribute to his campaign fund. I am aware that Mr. Schmig has filed to run for Grant County Assessor. Attached is the note I wrote in my file at the time the incident happened.
