Hello Tabatha

I wanted to let you know, after going through the Enforcement Guide, that I believe these are Material Offences. Mr. Chan works in finance and speaks about his ability to file paperwork and handle budgets as a reason he should be elected. He has run for Fire Commissioner I believe 5 times. He has all the knowledge and understanding he needs to correctly file reports. I believe these violations should be treated as the highest level, he didn't just forget to enter one number or forget to get the full info on a donation. He has failed to file anything. And from my experience, the things he's put out there would have costed at least \$10,000.

Thanks,

P. Bret Chiafalo
