I report everything.

I believe the "negative" cash on hand comes from when you report a debt, I don't really know, that'd be a question for PDC staff.

I'm not an expert at ORCA and it's not a user friendly program. PDC and complainant are more than welcome to check out my ORCA; I do all the data entry myself. But I certainly report all my expenditures and contributions. I even report them at the time a contract is signed, unlike my opponent, who doesn't report until after sometimes the ad runs.

Also please let complainant know, Facebook is blocking all my political advertising because I own a marijuana store. See attached.
