Subject: Re: PDC rulemaking

Thanks for sending this over. Here are a few comments for you.

- WAC 390-05-215 (1): Is it possible to add in some language mandating how soon a credit card donation, if received in person, has to be processed? The way this rule is worded, I could collect remits with credit card donations all year, wait to process them until November 1, and they wouldn't count as contributions until the processor transferred the money to my account.
- WAC 390-16-034: The text says "their occupation, and the name and address of their employer," but we only report the city and state of their employer. Could that be changed to city and state?
- WAC 390-16-205 (3): In the example for section three, the text says \$5,000, but the in actual example, the total is \$5,500.
- WAC 390-16-207 (1): The added text says that in-kinds need to be reported on the C-3 report, but aren't they reported on the C4?
